

December 15 2020

## **Dear Patient,**

It is with sadness that I wish to inform you that I will be leaving my practice as of March 31 2021. It has been an honour working alongside you as you have taken steps to better the health of yourselves and your families. On behalf of both Dr. Raveenthiran and myself, we sincerely thank you for this privilege.

I am happy to introduce that Dr. Nadya Sankat will be taking over the practice. She graduated family medicine residency from McMaster University and brings with her much experience and interest in comprehensive primary care. All your records will remain at the Central Brampton Family Health Organization and your care will be automatically transferred to Dr. Sankat. I encourage you to call and book an appointment to meet Dr. Sankat from April 1 2021 onwards. You will have until October 2021 to complete a registration form to remain rostered under Dr. Sankat.

If, for whatever reason, you choose to find a different family physician elsewhere, your new family physician can request a copy of your medical records with a signed release from you.

If possible, please complete any tests ordered by myself or Dr. Raveenthiran by March 1 2021. This will allow us to review your results with you. If you have had a test ordered by myself or Dr. Raveenthiran and have not heard back about the result, please follow up with us prior to March 30 2021 or with Dr. Sankat after April 1 2021. This will ensure that no significant results are missed. Please also inform any specialists you see that your family physician will be Dr. Sankat as of April 1 2021.

Once again, it has been an honour and a privilege to serve as your family physician. When taking over the practice four years ago, my hope and vision was to follow in the footsteps of my predecessor Dr. Byrne and work alongside your families long-term. Unfortunately, due to changing circumstances, this cannot be the case. I wish you and your family happiness and health. Please keep safe during these times.

Warmest Regards,

Dr. Mehry Kianfar, BMSc, MD, CCFP
